Emne: Everest: Masto wire rope lubricator

Good day Boriss,

Masto greasing wire rope lubricator is excellent , wires can be greased faster and more deeply inside wires. Consumption is more or less same as manual greasing, however grease is not wasted and penetrates internally.

Best regards
MT Elandra Everest

Good day,

Everything is good. Very useful greasing machine. Apply the grease deeply and evenly. Also safe a lot of time.

Thank you.
